PERSONAL INFORMATION

E-mail: maarten.hormes@gmail.com

Phone number: +31 6 18687280

Address: Karel Doormanstraat 3c 6045EA Roermond

Date of birth: 27-01- 2000

ABOUT ME

Full-Stack Software Engineer with experience building scalable web applications from server infrastructure to frontend design. I work primarily with JavaScript/TypeScript frameworks (React, Vue) and Java (Spring Boot).

My interest in software started in high school and never really stopped. It turned from interest into a hobby, into a personal drive to keep learning and building. Outside of work I build web applications, run a home lab, tinker with IoT/Smart Home integrations, and contribute to open source projects like Obsidian plugins.

I'm a team player who values open conversation and finding the right approach for each situation. I like to get things done, properly.

EDUCATION

2020 - 2024

Fontys ICT & software engineering,

Englisch stream, Eindhoven

Graduate of the software engineering course at Fontys University of Applied Science.

With a specialization in creative technology (develop tech in a creative way with focus on helping society).

Minoring in Embrace TEC (technology, entrepreneurship & creativity), to discover my passion in IT and define who I am as a professional.

WORK EXPERIENCE

AZL, Heerlen (full-time)

Oct 2026 - present

Software Engineer

- Joined the connectables team at AZL where I started writing integrations for all sorts of applications. This autonomous team is responsible for connecting all different technical parts of AZL's their customers switch to the new pension system (WTP) in the Netherlands.

Limax B.V., Horst (full-time)

Aug 2024 - Sept 2026

Full-stack software engineer

- After graduation, I got offered a full-time contract at Limax B.V. where I continue to work as a full-stack software engineer of the Flowcontrol system. Besides starting as a full-stack Software Engineer, I was also responsible for the management of our hosted applications, the security specialist and part of the small team setting up the IT department.

Quad Solutions, Eindhoven (graduation internship)

Feb 2024 - July 2024 intern

Software engineer

- My graduation internship was performed at Quad Solutions in Eindhoven. During my graduation I worked on the development of a web application for the company. This application integrated with the company's hour booking system and was intended to be used by management to verify logged hours, analyze over- & under-booking and create projections for contract periods. The project consists of a SpringBoot backend and a React.js frontend, being hosted on Heroku and Vercel respectively.

Limax B.V., Horst (part-time)
Feb 2023 - July 2024
Junior software engineer

- After a successful internship, I got offered a job to stay and work as a junior software engineer at the company. Here I continued working on the development of the Flowcontrol system.

Limax B.V., Horst (internship)
Aug 2022 - Jan 2023
Software engineer intern

- My first internship was performed at Limax B.V. where I worked on the development of the Flowcontrol system. Here I was tasked to create a security implementation to secure the system. This included the implementation of a OAuth2.0 provider (Keycloak), a JWT token system and RBAC configuration.

DEYO Huiswerkbegeleiding, Roermond (part-time)
Apr 2022 - Feb 2023

- Tutored in Dutch and math.

LANGUAGES

Dutch	Native Language
English	Fluent
German	Average

HOBBY'S

Football/Sports

Music (technical side of music as well as playing the guitar/singing)

Software development

TECHNICAL SKILLS

Developed in:

- C#
- Java (Spring Boot)
- Kotlin (Spring Boot)
- PHP (Laravel)
- Phtyon
- JavaScript / Typescript (React.js, Next.js, Nuxt.js, Vue.js)

Worked with:

- Git (GitHub/GitLab)
- Docker / Podman
- Kubernetes
- Keycloak
- Kafka
- Redis
- Postman
- Sonarqube
- Vercel / Render
- DigitalOcean / Cloudflare
- Cloudinary / MinIO / Neon
- Postgres / MSSQL / MongoDB / SQLite
- Proxmox / Home Assistant / TrueNAS

SOFT SKILLS

Professional skills:

- Structured
- Orderly
- Result driven
- Team player

Personal skills:

- Passionate
- Tidy
- Communicative
- Independent
